OUR STORY

A Dream Blanketed in Snow

Jerry and Linda set off from their snow-deprived hometown, a place that had never truly embraced the magic of Christmas. For Linda, the annual tradition of crafting delicate angel tree toppers with her parents had always filled her with a profound sense of wonder and belonging. One day, she stumbled upon an old photograph that stirred something deep within her - there was her own handmade angel, perched atop a snow-dusted Christmas tree in a distant North American home. The sight of her creation in that festive, wintry setting awakened a longing in Linda's heart, a dream to surround herself with a landscape blanketed in white, the spirit of the holidays palpable in the air.

Years later, still yearning to fulfill this vision, Linda's journey took her to the mountains of Japan and then the bustling streets of Vancouver. Without confiding in her devoted husband Jerry, she secretly applied for Canadian immigration, the prospect of building a new life in a winter wonderland both exhilarating and terrifying. To her surprise, she was conditionally approved, but with the requirement that she start a Canadian business - a daunting challenge that left her wracked with self-doubt.

Jerry, a kind and hardworking man, was content providing for his family through his job at his mother-in-law's angel tree topper business, despite having no experience running a company himself. His sole focus was on supporting his pregnant wife and young son, the thought of uprooting his family, learning a new language, and starting from scratch in a foreign country filling him with a mix of fear and uncertainty. When Linda revealed her plans, Jerry was torn, his heart aching at the prospect of being separated from his loved ones, yet recognizing the deep importance of his wife's dream.

After two long years apart, Jerry made the emotional decision to join his wife and children in Canada. As he packed for the move, a spark of inspiration ignited - he could start a business selling his mother-in-law's beloved angel tree toppers, fulfilling the immigration requirement while allowing him to continue supporting his family.

With a renewed sense of purpose and a heart full of trepidation and love, Jerry and Linda founded Starlight Trading Company.

Their first major trade show in Edmonton was a resounding success, with eager retailers flooding their booth. As Jerry's hands grew raw from writing order after order, the once-daunting prospect of starting anew became a triumphant reality, and Linda's dream of living in a snowy, Christmas-filled wonderland had finally come true - with her devoted husband by her side, their family united at last.

Twenty-five years later, Starlight Trading Company remains a testament to their dedication and perseverance. As a family-owned business, it has expanded into all things Christmas décor and even Halloween items. Starlight Trading is now the leading distributor of angel tree toppers in Canada, bringing joy to families across North America. With over 65 years of combined experience in Christmas wholesaling, Jerry and Linda still design the beautiful catalogue each year, while their sons, Peter and David, manage operations, accounts, and IT.

OUR MESSAGE

Partnerships are an ideology and practice that are emdedded into our culture here at Starlight. We believe that with complete transparency, we can maintain a relationship with our customers that is built around faith, goodwill and trust which can lead to prosperity. However, not everyone practices these ideologies.

Unfortunately, the current state of Canadian and USA relations has created uncertainty across not only our economy, but the global economy. The Canadian dollar has weakened and our ability to use certain aspects for NAFTA has been removed which has ultimately affected many businesses' ability to conduct business as usual.

The 25% tariff will create a ripple effect across all sectors of the Canadian economy. Although that may be the case, we at STARLIGHT want to assure you that the effects on our operation are minimal.

We are proudly family-owned Canadian small business that conducts the majority of our business in Canada. Through strong sourcing, customer service and logistics supply chains, we will be well stocked and conducting business as usual in Canada. We will continue to provide you with excellent service, unique products and competitive pricing, especially during these uncertain times.

A top-down view of various gold Christmas ornaments and tree decorations arranged on a light-colored wooden surface. At the top is a large, intricate gold wireframe star. Below it, a gold ball ornament with a faceted, diamond-like pattern is suspended by a white ribbon. To its right is a smooth, reflective gold ball ornament. The scene is scattered with small gold and silver ornaments, a white snowflake-shaped decoration, and a branch of a green tree with white snow-like dusting. A long, flowing white ribbon with a gold edge winds through the composition.
